

Van Diepen Enterprises, LLC, dba Ecological Engineers, is a small business with deep expertise in evaluating pest control programs to maximize cost-efficiency while protecting public health. We specialize in eco-friendly, non-toxic pest control solutions that minimize chemical exposure—supporting a healthier environment for our government clients and the communities they serve. Our approach aligns with DOGE initiatives by reducing material costs and optimizing workforce utilization. With over 40 years of combined experience in public health and pest management, we offer informed, safe, and sustainable strategies that reflect the goals of the Department of Health and Human Services (HHS) and the “Make America Healthy Again” (MAHA) initiative. At our core, we are committed to protecting people, preserving the environment, and promoting smarter pest control practices.
